Property Description

Location: Oakhill Heights, Monte Elviria, Costa del Sol, Spain

Sitting proudly amidst the surrounding countryside is Oakhill Heights. An exquisite private enclave of just fourteen 3 & 4 bedroom contemporary homes comprising semi-detached houses and townhouses with huge- 307-340 m² living spaces and large terraces and gardens. Completed to the highest standard, these modern, sprawling multi-level luxury properties enjoy spectacular uninterrupted mountain and sea views from all rooms.

Development is already underway and all licenses are in place ensuring that delays often associated with off-plan properties are avoided.

We understand that every buyer is different, so we provide the unique opportunity to customise each property with a number of options and subsequently deliver the keys to the completed property within just 4 months, much less than the usual delivery time for a typical off-plan home. Our simple, structured approach to property tailoring allows us to personalise our signature design and reform process to each individual property in a professional manner with all costs contained within the agreed purchase price.

Available options include the ability to have a plunge pool or a Jacuzzi on the roof terrace, choose kitchen appliances, select either a Zen style or landscaped garden, and even adjust the floor plan to include a 4th bedroom. Siesta also has an interior design department that can, if required, help ensure your property is finished to the highest standards with tasteful, contemporary design elements that match your personal taste.
